Product Description

Balancing equipment out of wood Training to keep your balance. This requires concentration! During the first attempts at walking over this balancing seesaw a holding hand is a reliable support. Children should only be allowed to cross it without using their hands after having developed a basic sense of its tilting moment. For safety's sake, rungs have been screwed on which provide optimal surefooted underneath the trainers. Walking across this seesaw furthers not only coordination skills, but also self-confidence.
