Product Description

Introduce preschoolers to the basics of science.
Self-checking activities children master on their own.
Includes: Origin of materials, matching animals to their mothers, homes, footprints and diet.
Simply touch the interactive pen to a Hot Dot and the Talking Hot Dots® Pen responds instantly with a green light and positive sounds.
Incorrect answers receive a red light and a gentle wrong sound or phrase.
This set of 36 colourfully illustrated cards provides 72 early learning activities in a handy storage carry case.
Use with our Talking Hot Dots® Pens, sold separately!
