Product Description

The ARK Brick Bracelet™ provides a safe, wearable, discreet, and cool solution for those who need to chew. It has a unique 'twist-on' style that makes it very easy to take on and off the wrist as needed for oral motor stim throughout the day.

Because it's worn on the wrist, it's a particularly good option for those who can't wear necklaces and/or for those who chew on their sleeves. It can also be used as a sensory fidget - twist it, bend it, run your fingers over the tactile bumps, etc.

DETAILS

XXT / Very Firm - The “Xtra Xtra Tough” level is very firm and durable - recommended as the longest lasting level for avid chewers.

Specifications:

Made from medical-grade elastomer.

Crafted in Ark's own factory in Columbia, SC for quality and safety assurance.

Small: 2.4" at its widest and just under .4" thick. Inner diameter is 1.75". Large: 2.9" at its widest and just under .4" thick. Inner diameter is 2.1".

Each chew tool sold separately.

Handwash or top-rack dishwasher-safe.

Caution: Not a toy. For ages 3+. Direct supervision required. Regularly inspect the product and replace at first sign of wear.
