### Product Description

ARK's Textured Bite-n-Chew Tip XL is a tip attachment for the Z-Vibe® specially designed to work on biting and chewing oral motor skills. At 2.5 inches total in length (2 inches long when inserted into a Z-Vibe handle), this tip can reach all the way to the back molar area for chewing exercises and/or for sensory input. Use it to promote a sustained bite, develop jaw strength and stability, practice rhythmic and rotary chewing, and more. It can also be used outside the mouth on the cheeks and lips for added stimulation. It's similar to the standard Bite-n-Chew Tip XL, but

has added bumps to gently de-sensitize the mouth and work on texture acceptance. The texture also simulates the feel of real food for realistic non-food chewing practice.

- Made in the USA out of medical grade, FDA compliant materials
  - No lead, phthalates, PVC, BPA, or latex
  - Each tip measures approximately 2.5" in length and just under .5" in diameter
  - Dishwasher-safe
  - Sold individually in a pack of 1
  - To be used with either the Z-Vibe® or Z-Grabber® handle (sold separately)
- \*\*Caution:** this therapeutic tool should be used under adult supervision at all times.
