Product Description

Notes, associates and learn the functional relationship between the objects.

PEDAGOGICAL CHARACTERISTICS

This educational material is based on the LOGICAL ASSOCIATION of pairs of objects represented in

each of the photographs, which are easy to identify, name, associate and determine their uses, taking into

account the FUNCTIONAL RELATIONSHIP of the objects forming each pair. It is also an excellent tool

for LANGUAGE DEVELOPMENT and the use of VERBS relating to the actions represented by the

objects of each of the resulting pairs.

PEDAGOGICAL OBJECTIVES:

- Incorporation and development of basic vocabulary.
- Understanding of the concept of “logical association”.
- Acquisition of the ability to relate objects functionally.
- Introduction to using abstract thought (acts as a basis for establishing mental associations and taking the first steps from concrete thought to abstract thought).
- Development of a capacity for observation, whether of the objects themselves or their characteristics and functions.
- Learning to form suppositions and explanations for possible relationships between objects.
- Improvement to psycho-motor co-ordination skills in handling the counters and pairing them up.

Product Attributes

- Age: 3+

DETAILS

CONTENTS

The game comprises 68 cards with photographs representing objects or scenes that are familiar to the child's environment, for forming 34 pairs by association.
