Product Description

Association game with bingo system to learn to differentiate and recognize basic emotions, associating the image of each emotion with its corresponding sound.

PEDAGOGICAL OBJECTIVES

A game of association for learning how to differentiate the basic emotions. The game uses the traditional bingo system: it consists of associating the image of each emotion with its corresponding sound. Understanding how we feel and recognizing how other people feel is a fundamental part of children's development and also helps to promote self-esteem.
