Product Description

Exciting and challenging balancing system. The elements can be combined in countless ways so use your imagination to set up all the balance courses and landscapes you can build. The level of difficulty can be varied to suit the development levels of the children and can be built at heights ranging from 100 to 240mm -depending on how brave the children are! Build N' Balance® is being constantly evaluated and developed, introducing new parts and features to offer even more challenging play opportunities.

Maximum load 100kg.
