Product Description

Exciting mini carousel giving children a real spin!

The seat is placed at a slight angle to allow the child to propel the Carousel by shifting their center of gravity. It is also possible for younger children to use their feet to set the seat in motion. The seat has a thick edge for children to get a firm grip and hold tight when the carousel is moving. Develops muscle integration as well as strength. Children's vestibular sense in combination with sight is also stimulated to help improve balance.

Be sure to check out the video to see the Carousel in action!

Product Attributes

- Age: 3+

DETAILS

Age: 3-10

The Carousel consists of a solid, molded plastic seat on a steel disc mounted with a rotation joint. A solid and stable metal base with rubber feet ensures safe spinning.

Dimensions: 250 (Height) x 560mm (Diameter)
