Product Description

Out of the beaker and high up into the air, that's where the ball will jump once you've pushed the release. The extra large beaker makes it easy for kids to catch the ball again, which is why it's also popular with beginners. This dexterity game can be played by one child alone or a group of children. It furthers the ability to react and the coordination of eyes and hands. Set: 2 beakers and 1 ball.

Product Attributes

- Age: 3+

DETAILS
