Embarrassment

CONTENTS

Set of 6 glove puppets (four of which are reversible with two different faces) plus an MP3 CD containing a recording of 2 full stories with music and dialogue. Staging the stories with the glove puppets helps children to learn about emotions so they can recognize them in the future. Each story lasts around 10 minutes. The CD includes several languages as a support for teaching other languages. The CD allows teachers to portray the stories without having to tell them: simply put on the CD and move the puppets according to the instructions in the script. It couldn't be easier or more practical!
