## Product Description

For cat-finders with a good memory who always wants to know where the cat is hiding!

In the game box you will find a green bed, a red blanket, small blue pillows, a game board/carpet and the cheeky cat, Monty

The cards show where Monty is hiding: on the bed, under the bed, next to the pillow.

In turn, each player must re-construct the scene with the pieces to score a point. The scene must then be accurately described. If done correctly, a point is scored. The player with the most points once the deck is exhausted is the winner.

Find Monty helps develop spatial perception and nurtures language development and communication. Also a great tool for the development of memory.
