Product Description

This battery-powered massager, designed for **oral and facial stimulation**, is extremely handy and compact. It is placed under the index finger, allowing the thumb to position the lips appropriately or to hold and stimulate the tongue or chin. Each of the five massage tips has a different consistency, from smooth to textured. It has a wide range of uses: for neurological patients, children with CP, and patients

with post-surgical procedures on the vocal tract, face, and perioral structures.

IMPORTANT - Please do not use the device in or near water. The product is not waterproof.

This tool must be used according to the therapist's instructions. It is not a toy; it must always be used by a professional or an adult trained in its use.
