Price: €8.00 inc. 19% VAT

SKU: 100460

Product Categories: [FEEDING & DRINKING AIDS](#), [ORAL MOTOR](#)

Product Page: <https://theraplaycy.com/product/flexi-cup-large/>

Product Description

The Flexi Cup's innovative design has a cut-out for the nose, which allows individuals to drink without tilting their head back. The cut out for the nose also makes it easier to view lip and tongue movement. Because it's flexible, it can be squeezed to control and direct the flow of fluid. Highly recommended for beginning cup drinkers, and/or individuals with limited head/neck dexterity or drinking difficulties. A feeding therapy staple!

- Made in the USA out of FDA approved plastic that contains no latex, lead, BPA, or phthalates
- Top rack dishwasher-safe
- Holds 8 ounces
- Measures approximately 3 x 3 x 5" (L x W x H)
- Also available in medium and small sizes
