Price: €5.95 inc. 19% VAT

SKU: 100458

Product Categories: [FEEDING & DRINKING AIDS](#), [ORAL MOTOR](#)

Product Page: <https://theraplaycy.com/product/flexi-cup-small/>

Product Description

The Flexi Cup's innovative design allows individuals to drink without tilting their head back. The cut out for the nose also makes it easier to view lip and tongue movement. Because it's flexible, it can be squeezed to control and direct the flow of fluid. Highly recommended as a feeding therapy staple for beginning drinkers or those with limited neck/head mobility or drinking difficulties.

- Made in the USA out of FDA approved plastic that contains no latex, lead, BPA, or phthalates
- Top rack dishwasher-safe
- Holds 1 ounce
- Measures approximately 2 x 2 x 2.5" (L x W x H)
- Also available in medium and large sizes
