Product Description

Observation game in which up to 30 different characters, front, side and back, they appear to complete the master elongated tabs.

PEDAGOGICAL CHARACTERISTICS

The educational content of this material is based on the LOGICAL and SEQUENTIAL ASSOCIATION between each of the series of 3 photographs. The people represented in the photographs can be clearly distinguished between each other by both their clothing and the objects they are holding. They are easy for the child to identify, name and determine what they

do. The series recreate everyday people, such as a doctor, a ballerina, a chef, a motorcyclist, a tennis player, etc., all of whom are familiar to the child. The series enable the child to become aware of the different POSITIONS and DIRECTIONS OF THE BODY and thus aware of his or her own BODY PERCEPTION (a fundamental concept for correctly acquiring LITERACY SKILLS at a later date). It is also an excellent means of DEVELOPING LANGUAGE and using the VERBS that correspond to the actions represented in the photographs. The association of “from the front – from the side – from behind” by means of different individuals develops an internal mental process that enables the child to establish a directional relationship between the three positions, a basis for interiorising the same relationship in his/her own body.

PEDAGOGICAL OBJECTIVES:

- Incorporation and development of basic vocabulary.
- Encouraging logical thought processes and spatial-temporal reasoning.
- Acquisition of the ability to relate objects functionally.
- Interiorisation of the sequential order of things.
- Introduction to using abstract thought (acts as a basis for establishing mental associations and taking the first steps from concrete thought to abstract thought).
- Development of a capacity for observation, whether of the objects themselves or their characteristics and functions.
- Improving psychomotor coordination by handling the cards and putting them together correctly

Product Attributes

- Age: 3+

DETAILS

CONTENTS

A game comprising 90 photographs divided into 30 series. Each series is made up of photographs showing the same individual from the front, from the side and from behind. The game is regulated by 10 long master-cards. Each master-card starts off 3 series that the child has to complete towards the right with the correct photograph cards (of the same person).
