Product Description

Go Go Rollers feature two pedals attached to four large wheels. Children need to use a pedaling or running motion to move forward or backward and it can take a little while to get the hang of it. Great exercise and a great way to train large motor skills and increase balance, coordination and strength. This roller is sturdy and runs smoothly.

Go Go - 3rd generation - in a modern design and improved quality. Go Go reflects the ambition to manufacture strong and beautiful toys that are safe, stimulating, and fun to play with. Our designers have given Go Go an up-to-date design, which combines panache with strength. On the basis of years of experience, we have created Go Go to fulfill the quality requirements set forth by child care centers. Maximum load 50 kg.

Handles may be purchased separately and mounted on for young children.
