

Johnson Textured Spoon-Large

Price: €10.15 inc. 19% VAT

SKU: 100452

Product Categories: [FEEDING & DRINKING AIDS](#), [ORAL MOTOR](#)

Product Page: <https://theraplaycy.com/product/johnson-textured-spoon-large/>

Product Description

Textured Spoons combine oral-sensory stimulation with feeding. The textured bottom provides increased oral-sensory stimulation to the tongue, facilitating a smooth transition to conventional spoon feeding. The shallow bowl allows for a smaller bolus size. Extended handle allows for hand-over-hand assistance. Large spoons are for older children and adults, and come in silver.

Recommended for children with oral hypersensitivity.

Johnson is a well known manufacturer of many therapeutic products for young children.
