Product Description

The Mini-Vibrator massager is suitable for smaller areas of the body. It can also be used for the sensory integration of the oral cavity, externally. It produces 92 vibrations per second. Includes three different natural rubber parts. You can also use it with its lid for larger surfaces. One application per day should not take more than 10 - 15 minutes. Battery included.

- Mini vibrator, massager with 4 attachments - The mini vibrator is suitable for massaging smaller body areas.
- For point massage - Three different

attachments. In addition, the cap can remain on the device and serve as an additional attachment for large-area massages.

DETAILS
