Product Description

Application:

Hypersensitivity treatment

Sensory therapy

Dysphagia treatment

Spatulas can be freely shaped, moistened and used to feed patients with food of different density and texture.

Their value was appreciated by ARK Therapeutic Services Inc. specialists who designed the special base to the Z-Vibe vibrator (popette tip) in which ORAL SWAB can be installed.

The spatulas can be used with speech therapy vibrators: Z-vibe (DnZ-Vibe).

FEATURES:

- Soft foam heads: Provide gentle cleansing for fragile oral tissue, single-handed removal of debris and oral secretions.
- Perpendicular ridges: Allows for cleaning between teeth, provides a better stimulant for oral mucosa, allows for easy grasp of thick mucous.

IMPORTANT: not compatible with the TALK TOOLS miniVIBRATOR
