Product Description

Liquid-filled hour glass containing a pair of bobbing penguins. Flip it over to make the blue liquid slowly cascade from the top section to the bottom, slowly causing one penguin to rise as the other sinks. Each end of the hourglass has a jewel-like shape, giving it an ornate appearance that's different to most toys and novelties of this nature. The effect is almost hypnotic to watch, making it a fun desk toy that's perfect for home or office use.

DETAILS
