Product Description

Spinner - specially designed by the designer and manufactured for SI therapy. Allows quiet and smooth 360-degree rotation of each of the SI equipment . Thanks to the swivel, the therapist has the opportunity to better use each of the equipment for Sensory Integration therapy.

We recommend that the swivel be used with any single-hook SI equipment, failure to use it may cause damage to the swing.

The swivel comes with 2 snap hooks.

Total length 27 cm.

This product complies with EU standards.
