Product Description

Soft Play Tunnel/Barrel 120 X 60cm

Inside Diameter 40cm

An excellent piece for toddlers, day care, pre-school, special education, and therapy. Rolling over and crawling through the tunnel increases balance and coordination. This wonderful piece can be used together for educational purposes or used separately to create an obstacle course.

- Proprioceptive & Motor Skill Development – Encourages pushing, crawling, and rolling activities to enhance body awareness and motor planning.

- Vestibular Stimulation – Rolling or rocking inside the barrel promotes balance, spatial awareness, and overall sensory regulation.
- Hand-Eye Coordination – Can be used as a target for games and exercises to strengthen coordination skills.
- Calming & Relaxation – Provides a cozy, enclosed space for deep pressure input, helping to soothe and regulate emotions.
- Fun & Engaging – A great addition to obstacle courses, therapy sessions, and interactive play.
