Product Description

Thanks to their age-based designs, our sorting sets for the youngest children motivate them to name the motifs illustrated. The elements on the wooden cards can be found in the different scenes on the puzzle board and make sorting easy and provide a self-check opportunity.

Is the squirrel a creature that lives in the woods? Where did I last see a duck? Using the Sorting Set “Environments” children learn about four different living environments and their animal inhabitants.

Encourages: naming of objects and animals),
Coordination and motor skills, sorting skills, Colours.
