Product Description

The Drooling Remediation Program has a step-by-step approach that doesn't focus on behavior but rather addresses the cause of drooling with a new set of eyes, Oral Placement Therapy. Possible areas of saliva control deficit include: body posture, sensory awareness, lip closure and saliva retraction. The fun, motivational OPT activities are suitable for both children and adults, and can be implemented by therapists as well as families.

Includes:

-1 Drooling Program Manual

- 1 Bubble Kit
- 1 Horn Kit
- 1 Straw Kit
- 1 Button Pull Program
- 1 Bite Tube Set
- 1 Spinner and Toothies
- 3 Flavored Tongue Depressors
- Straws C and D
