Product Description

Children can see themselves speak when they are making a voice recording. In addition, there is a snap on clear cover so that pictures can be inserted into the device for use in science investigation or in language work.

With simple record and play buttons this deluxe device provides the child with the opportunity to record up to 30 seconds of sound and play it back. On the front, children or teachers can write or draw pictures onto the device using a write on/wipe off pen. One supplied. Size approx 130mm x 130mm x 28mm
